

Embellish Maker Software Update

Build 3470

Release Date: 9/18/18

Mylar Tool

The mylar tool makes it very easy to automatically convert shapes to mylar ready designs.

Miscellaneous Features

We have added a few other tools and enhancements. Below is a list of these and a link to a video to see them in action:

- Embellish Matte Thread Chart has been added.
- Social Media Tools – we were required to remove the Facebook and Pinterest social media tools due to their policy changes.
- 8 New Emboss Shapes have been added to the software.
